

Theo Richardson | Graduate Student, University of Florida

richardson.t@ufl.edu | richardson-t.github.io

Education

University of Florida — Ph.D. in Astronomy	In progress
University of Florida — M.S. in Astronomy	2021
Cornell University — B.A. in Astronomy/Astrophysics	2019

Employment

Graduate Research Assistant — University of Florida	2019 - Present
Graduate Teaching Assistant — University of Florida	2019 - 2020
Undergraduate Research Assistant — Cornell University	2018 - 2019

Areas of Research

- Star formation theory, particularly how mechanisms of accretion and evolution relate to the stellar initial mass function
- Measurements of the core mass function as a window into the local physics of star formation
- Computational methods/software development for analysis of star-forming regions

Teaching Experience

Spring 2020	TA — AST1022-L, Astronomy Laboratory
Fall 2019	TA — AST2003, Intro to the Solar System

Fellowships/Awards

McKnight Doctoral Fellowship

Presentations/Conferences

AAS 237 - Oral Presentation, Panel on High-mass Star Formation

Outreach

UF Starry Night, 2019
